## STATE, CITY AND CORPORATION FINANCES.

## EXPLANATION OF STOCK AND BOND TABLES.

- 1. Prices of the most Active Stocks and Bonds are given in the "Bankers' Gazette," previously. Full quotations of all other securities will be found on preceding pages.
- 2. Government Securities, with full information in regard to each issue, the periods of interest payment, size or denomination of bonds, and numerous other details, are given in the U.S. Debt statement published in The Chronicle on the first of each month.
- 3. City Bonds, and Rank, Insurance, City Bailroad and Gas Stocks, with quotations, will usually be published the first three weeks of each month, on the page immediately preceding this.
- 4. The Complete Tables of State Scenrities, City Scenrites, and Railroad and Miscellancous Stocks and Bonds will be regularly published on the last Saturday in each month. The publication of these tables, occupying fourteen pages, requires the issue of a supplement, which is neatly stitched in with the usual edition and furnished to all regular subscribers of The Chnonicle.

## INVESTMENTS-THE PACIFIC RAILROADS.

The present investigation by Congressional Committees, and the proposed legislation in regard to the Pacific Railroad Companies, are naturally working some injustice to the holders of their securities. It is probable, however, that any loss which may result to the roads is greatly exaggerated, and that the value of their mortgage bonds can hardly be affected. The developments concerning the original disposition of the stock and bonds of the Union Pacific Railroad should have no effect whatever in prejudicing Congress or the public against present bona fide holders of those securities. The whole extent of the adverse legislation which may be enacted is probably embodied in the following resolution, passed in the United States Senate on

"And the Secretary of the Treasury is directed to withhold all payments from any railroad company or its assigns on account of freight or transportation of any kind over their respective roads, to the amount of the payments made by the United States of the interest upon the bonds of the United States issued to any such company which shall not have been reimbursed, tegether with five per cent of the net earnings due and mapplied as provided by law, and any company may bring suit in the Court of Claims to recover the price of such freight and transportation, and in such suit the right of such company to recover the same upon the law and the facts of the case shall be determined; and, also, the rights of the United States in answer to any such claim, and either party to such suit may appeal to the Supreme Court, and both such Courts shall give such cause or causes precedence or all other business."

The reports of Central and Union Pacific Companies to the Government for the year ending June 30, 1872, showed in regard to the Union subscriptions to the stock paid up were \$36,762,300; passenger earnings were \$3,067,808; freight, \$4,122,651; miscellaneous, \$771,711. The entire cost of the road, \$114,258,535. The indebtedness is \$75.894.512, including \$27,237,000 of first mortgage bonds, and \$27,236,512 United States loan.

The Central Pacific Railroad showed stock paid up of \$54,283. 190; passengers earnings, \$3.620,519; freight, \$5,753,246; expenses, \$4,317,332 32. The indebtedness of the Company is \$80,900,132, including \$27,855,680 United States Government bonds, \$25,883,000 of first mortgage bonds of the Central Pacific Railroad Company, and \$9,153,000 of land bonds.

In these reports the amount of earnings from Government business is not given, but estimates from good authority place the annual receipts of the Central Pacific on this account at about \$400,000, and of the Union Pacific at about \$800,000, so that if the whole of the earnings from U. S. government transportation were retained, instead of one-half, as new, the annual increase to the Central would be about \$200,000, and to the Union Pacific about \$400,000. The gross earnings of the former in 1872 were \$12,900,126, and of the latter about \$8,779,099, and the net earnings of Central Pacific for the year ending December 31, 1872, were about \$7,500,000, and of the Union Pacific about \$4,000,000.

Aside from all questions of fraud, deception, or attempts to influence members of Congress, there is not a liberal financial man in the country who would not say that the parties who carried the Pacific railroad through, at the period they did, were entitled to make a handsome profit.

The standing of all the Pacific Railroad Companies, as regards their liabilities to the government, is stated in the last debt state. ment (Dec. 31) as follows:

Missouri State Finances.—The St. Louis Republican gives a Missouri State Finances.—The St. Louis Republican gives a careful summary of the financial condition of the Missouri State government. The total debt of the State is \$18,747,000, the annual interest on which is \$1,140,710. Besides the regular State revenue tax, there is also a regular State interest tax, annually levied for the purpose of paying the interest on the debt, and yielding something for a sinking fund. The condition of this fund for 1872 is stated by the Fund Commissioners in a recent communication to the Legislature. On the 1st of January, 1872, there was a balance on hand of \$335,590, and during the 1872, there was a balance on hand of \$335,590, and during the year the receipts from the State interest tax were \$1,413,743, making a total of \$1,749,334. Of this amount \$1,085,044 were used to pay interest, and \$293,155 transferred to the sinking fund to pay bonds falling due, leaving a balance on hand of \$371,133 on the 1st of January, 1873. Of the State debt, \$599,000 talls due the present year, \$811,000 next year, \$1,412,000 in 1875, \$3,069,000 in 1876, \$1,034,000 in 1877, and \$529,000 in 1878; after that there will be no portion of it falling due till 1883. It is to meet the amounts falling due as given above, that Gov. Brown, in his message, stated that a temporary loan will be necessary. The total receipts into the State treasury in 1873, including a balance on hand of \$742,626, were \$3,638,749, and the total expenditures, including \$1,085,044 paid for interest, were \$3,044,219, leaving a sarplus of \$594,529, a portion of which was transferred to the sinking fund.

Virginia Finances.—A joint resolution originating in the

Virginia Finances.—A joint resolution, originating in the Senate, passed both Houses January 22, requesting the Governor to notify the creditors of the State of the action of the General Assembly in regard to the proposed conference between said creditors and a special committee of the General Assembly in regard to the public debt, to be held in Richmond on the 15th of

February, and to invite the attendance of the creditors.

Col. Joseph Mayo, Jr., State Treasurer of Virginia, in response to a resolution of the House of Delegates of that State, has made

to a resolution of the House of Delegates of that State, has made a report on the value of the securities held by the State, from which is taken the following summary:

First, second mortgage bonds of the Atlantic, Mississippi & Ohio Railroad Company for \$4,000,000—unable to give even a conjectured estimate of marker value, having no data; second, conjectured estimate of market value, having no data; second, first mortgage bonds of Richmond and Danville Railroad Company for \$385,000—value, \$308,000; third, common stock of Richmond, Fredericksburg and Potomac Railroad Company for \$275,000—value, \$167,750; fourth, common stock of Chesapeake & Ohio Railroad Company for \$2,014,000—value, \$805,600; fifth, capital stock in Roanoke Navigation Company for \$80,000—value, \$16,000; sixth, capital stock in Upper Appomattox Navigation Company for \$12,500—value, \$12,500; seventh, bonds of the Washington & Ohio Ruilroad Company for \$52,000—value, \$52,000; eighth, the Berryville Valley & Northwestern Turnpike Companies are in a flourishing condition, and should yield some revenue to the State. revenue to the State.

Texas Finances.—The Governor's message, after making a detailed statement of the obligations of the State, sums up as tollows:

Thus the total of the actual indebtedness of Texas amounts to the small sum of \$1,662,998 78, an amount which could be paid off by a tax for a single year ot less than a half of one per cent on the taxable value of property within the State. On the other hand, we have in the treasury to offset this debt, \$49,279 62 in specie and \$204,036 07 currency, belonging to special funds.

The Governor, however, observes:
"I have not included among our obligations the following items mentioned in the Treasurer's report, viz.: Five per cent State bonds to the credit of the university and permanent school fund, \$216,641 05; six per cent State bonds to the credit of permanent school fund, \$320,367 13; Comptroller's certificates of indebtedness, \$89,709 91; total, \$626,718 09. These items represent State warrants or State bonds issued during the war, and representing obligations which are now void, should no longer be borne on the Comptroller's reports. In effect, these bonds and certificates are due to ourselves, if at all, to support the university and public schools."

Baltimore City Finances and the Valley Railroad.—The receipts of the municipality for the year ending on the 21st of October were \$6,150,050 67, and the disbursements \$5,968,792, showing a ralauce of \$481,258 67. The showing in regard to the funded and guaranteed debt makes it \$28,612,925 47, on \$16,783,899 22 of which the city is paying interest. The funded debt was ingregated during the year \$1,273,100 by the ingrees of debt was increased during the year \$1,273,100 by the issue of city stock to the Western Maryland Railroad Company, the new City Hall and the Jones's Falls Improvement, and the guaranteed debt was reduced \$343,000. The stock and securities of the city in the railroad and canal companies of the State amount to \$8.542,230 93. In this connection the Baltimore Sun recently states that a resolution was adopted by the second branch of the city council requesting the finance commissioners to inform the branch as to a proposed method of adjusting the differences of opinion existing between them and the Valley Railroad Company relative to the city's subscription to the capital stock of that road; also that the Valley Railroad Company has executed a mortgage for \$3,000,000 to complete the entire line. The bonds will be 7 per cent. currency bonds, payable in thirty years. The will be a first lien on the entire line of road, 113 miles. These bonds

New York City Finances.—Comptroller Green has opened proposals for the whole or any part of the sum of \$2,600,000 "City Improvement Stock" bearing 7 per cent interest, payable May and November, and the principal payable November 1, 1392. There were thirty one bids. The highest bid offered was for \$5,500 at 105. The total amount of the offerings was \$3,355,000, Totals......\$61,623,512 00 \$16,570,575 54 \$4,006,002 85 \$12,554,573 19 and the average rate 102}.

New York & Harlem Railrond .— (Returns for the Fiscal Year ended September 30, 1872.)-Through the kindness of the officers of the New York & Harlem Rallroad, we have obtained the figurea which have enabled us to prepare the following comparative statement of the operations of this road for the year ending September 30, 1872.

## CHARACTERISTICS OF ROAD.

| Main Line—New York City to Dover Plains, N. Y  Albany Extension—Dover Plains, N. Y., to Chatham, N. Y | 10.50     | h #   |
|-------------------------------------------------------------------------------------------------------|-----------|-------|

New York, Boston & Montreal Railroad.—The stockholders of the New York, Boston and Northern Railroad have voted unanimously to consolidate their road and franchises with the Harlem Extension for the formation of a company to be known as the New York, Boston and Montreal Railway. A meeting was also held at the Harlem Extension Company's office, No. 9 Nassau street, at which it was ununimously voted by the stockholders to unite with the New Yerk, Boston and Northern Railroad Com-pany. The stockholders of the new consolidated company then

pany. The stockholders of the new consolidated company then elected the following directors and officers:

President, George H. Brown; Vice-President, John Q. Hyyt; Directors, George H. Brown, John Q. Hoyt, Andrew McKenney, Henry H. Van Dyck, Joseph Seligmann, Grosvenor P. Lowrey, William B. Ogden, Moses Y. Tilden, Christopher Myer, Win. S. Eno, John S. Shultze and A. A. Selover.

Legal measures have been taken to bring the branch of the Harlem Extension Railroad, extending from North Bennington, the junction of the Glastenbury branch, to Rutland, into the combination.

The new consolidated trunk line under the name of the New

The new consolidated trunk line, under the name of the New The new consolidated trunk line, under the name of the New York, Boston and Montreal Railway, is 350 miles in length, extending from this city to Rutland, Vt.—It was recessary for the company to build only 103½ miles of new road—52 miles from New York to Catmel, 33½ miles from Carmel to Hopewell, and 30 miles from Pine Plains to Chatham. The reads entering into this consolidation are the New York and Boston, the Putnam and Dutchess, the Putchess and Columbia, the Pine Plains and Albany, and the Harlem Extension. The combination was made under the laws of New York, and the line to Rutland is now controlled by a corporate organization. At Rutland connection is made with the Rutland and Burlington Railrond to St. Albans, and at the latter point with the Ogdensburg and Lake Champlain and at the latter point with the Ogdensburg and Lake Champhain Railroad, and also with Montreal, where it will meet the proposed Northern Pacific and Montreal Railroad to Duluth.

Branches have been projected to many commanding points on the rands of Commodore Vanderbilt's system, and through con-nections to points hundreds of miles beyond that system east and west

An important feature of the consolidation is its connection with the Eric Railroad by the proposed bridge near Peckskill .- N. Y. Tribune, Jan. 21.
So much of the Harlem Extension Railroad as lies in Vermont,

ns far as Rutland, was sold last week or second mortgage for \$25,000. The purchaser was Mr. Charles G. Lincoln. The Tribune states: This road was formed by the union of the old Lebanon Springs and Bennington and Rutland Railroad, mortgage bonds of which were held by the towns through which they passed. These towns had no power under the laws to exchange them for any other bonds. The only, or at least the easiest way to change the title of the roads was to refuse to pay the interest on the bonds, and allow a toreclosure under the mortgage. This was done, and the New York, Besten and Montreal Railroad Company bought the Harlem Extension Railroad under a foreclosure sale. This was simply for the purpose of meeting the legal requirements, every other formality having previously been arranged. Lebanon Springs and Bennington and Rutland Railroad, mortgage arranged.

Peninsular Railroad.—The annual report of the President of the Peninsular Railway Company was presented at a recent meeting of stockholders. The road, says the Detroit Tribune, as it now exists, consists of a line about 210 miles long, being a consolidation of the Peninsular Railway between Battle Creek and Lansing, the Peninsular Railway Extension Company, organized between Battle Creek and the State Line, the Peninsular Railway Company, organized through Indiana, and the Peninsular Railway Company, chartered from the State line of Indiana to Chicago. Ground was first broken for the construction of the road at Battle Creek in November, 1866. In 1869 mortgage bonds to the amount of \$1,000,000 were issued for the purpose of ironing and equipping the road. On June 13, 1870, the first train ran to Lansing. Aid was voted by municipalities to the amount of \$283,500, but owing to the decision of the Supreme Court, that such aid was unconstitutional, only \$156,200 of this sum was received by the company. In 1870 the consolidation of all the above-mentioned lines was effected, and mortgage bonds of \$2,000,000 issued on the Illinois and Indiana division. The report details the relations of the company with S. W. Hopkins & Co., of New York. \$306,950 69 were found to be due them; it was paid in bonds, and they surrendered the stock and bonds held by them. Negotiations were then commenced with Gen. Cass and Col. Scott, of Pennsylvania, which were successful in obtaining an agreement for a loan to equip the road. In pursuance of this the Peninsular Railroad .- The annual report of the Presi-Negotiations were then commenced with Gen. Cass and Col. Scott, of Pennsylvania, which were successful in obtaining an agreement for a loan to equip the road. In pursuance of this the bonds of the company, then in London, to the amount of \$1,000,000 were transferred to these gentlemen as accurity for the loan, but while these bonds were in transit, Hopkins & Co. commenced suit in New York and obtained an injunction against the delivery of the bonds, and also enjoining the use or disposal of any bonds

The bonds to the amount of \$750,000 were released or steck. afterwards, leaving the injunction otherwise good, and the snit is still pending. Negotiations were, however, completed with the Pennsylvania companies, money obtained, and valuable traffic arrangements made, securing to the road business to the amount of \$30,000 per month. By the arrangement, the business of the road goes in and out of Chicago over the track of the Fort Wayne road. The total weight of freight transported over the road during 1872 was 46,233 tore, the number of page-aggree 3, 401. The goet 1872 was 46,233 tons, the number of passengers 83,491. The cost of operating the road during 1872 was \$168,252 52 and the receipts for the same period, \$109,913 52.

Atlantic & Pacific Railroad .- Mr. A. B. Stockwell, President of the Pacific Mail Steamship Company and the Samana Bay Company, recently organized, has been elected President of the Atlantic & Pacific Railroad Company, which company some time since leased the Pacific Railroad Company of Missouri, guaranteesince leased the Pacita Railroad Company of Missouri, guaranteeing the following dividends on the share capital of the latter: 5 per cent. per annum for the first three years, 6 per cent. for two succeeding years, and 7 per cent. thereafter, or during the remainder of the lease, which was made for 999 years. Mr. Andrew Pierce, formerly President of the company, was elected Vice-Piesident and general manager.

The Springfield (Mass.) Republican recently stated that a new financial arrangement was in progress, viz: "The stockholders surrender a large portion of their preferred stock, for which they pay in part in cash, and a distinguished outside capitalist takes a large amount of this surrendered stock at 25—report says 30,000 shares—paying for the same in cash. In return he is to be made President of the company, and take as exchange new bonds at 75." 75.

The Atlantic & Pacific road runs from St. Louis southwesterly The Atlantic & Pacific road runs from St. Lonis aenthwesterly through the State of Missouri and into the Indian territory, where it now connects with the Missouri, Kansas & Texas, making an unbroken line from St. Louis to Galveston. The Atlantic & Pacific's charter covers a route, by the 35th parallel, across the continent to San Francisco. The company has land grants to the amount of about fifty million acros, one million and a half of which are in the State of Missouri. The Pacific Railroad of Missouri is leased to the Atlantic & Pacific for 999 years on terms above named. The Pacific Railroad of Missonri has its eastern terminus at St. Lonis, passing to the west through the centre of terminus at St. Lonis, passing to the west through the centre of the State to Kansas City, Leavenworth and Atchison, with a total mileage, including branches, of 580 miles. The mileage of the mileage, including branches, of 580 miles. The mileage of the Atlantic & Pacific is 364 miles, making a tetal completed of 844 miles. The general office of both companies is at present 287 Broadway, but is soon to be moved further down town. The officers of the company are as follows: President, A. B. Stock well; Vice-President and General Manager, Andrew Pierce, Jr.; Treasurer, A. V. Stout; Secretary, Wm. A. Hayes. Directors: A. B. Stockwell, Andrew Pierce, Jr., Joseph Seligman, A. V. Stout, Frederick Billings, William H. Coffin, Ozias Bailey, Oliver Ames, Uriel Crocker, C. J. Morrell, Francis B. Hayes, George J. Curtis, and Jacob Sleeper. It has been reported that the Atlantic & Pacific is in default for six years' interest on \$34,000 bonds of the Southwest Pacific Railroad, but this question is in litigation. The debt and stock of each road are given in the monthly tables of the Chenonicle.

Eric, and Boston, Hartford and Eric.-From the New York

Tribune of Jan. 24 we gather the following:
"It will be remembered that in 1868, when the famous Vander "It will be remembered that in 1863, when the famous Vander bilt litigation with Erie occupied the attention of the courts, there was also a dispute of the Erie Railway Company with the Boston, Hartford and Erie Railroad Company, which was settled at the same time by the Erie's guaranteeing a large quantity of the Boston, Hartford and Erie bonds. About \$1,250,000 of these bonds were transferred to Commodore Vanderbilt in part settlement of his claims, and the Erie Railway Company is now suing for this amount, and for the balance of the \$5,000,000 paid him.

ment of his claims, and the Eric Railway Company is now suing for this amount, and for the halance of the \$5,000,000 paid him. Under the administration of President John S. Eldridge, the Eric Railway Company indorsed \$4,000,000 of the Boston, Hartford and Eric Railroad, and at the settlement with Gould, Fisk, Vanderbilt and others, it guaranteed \$1,000,000, making a total of \$5,000,000. At the present time the Eric Railway Company actually holds \$678,000 worth of these bonds, and controls about \$5,000,000, or the amount gnaranteed. The debt of the Boston, Hartford and Eric is about as follows:

| IMBESTEDNESS OF THE ROAD. Under or first lien bonds.                                                               | \$2,500,000             |
|--------------------------------------------------------------------------------------------------------------------|-------------------------|

The Erie Railway Company, in order to anticipate all the creditors, is about to begin a fereclosure suit in Boston, where is the office of the Boston, Hartford and Erie Railroad Company. The Erie claims a first lien on the Boston, Hartford and Erie, under a contract which was made with that road on Oct. 8, 1867, whereby the Erie was to receive the money derived from the Boston, Hart-ford and Erie's 'ransportation of coal in return for the guaranteeing of the bonds.

THE CONTRACT WITH ERIE.

The Boston, Hartford and Erie is a road extending from Boston, and designed to meet the Hudson River at a point near Fishkill. It is to be about 358 miles long, 76 of which have not been built. At the time of the contract it was about to be connected with the Erie at Newburgh. The contract, which makes special reference to this junction, stated in substance that earnings were to be divided on certain terms.

The Boston, Hartford and Erie also agreed to pay to Dudley S. Gregory and J. C. Bancroft Davis, Trustees of the mortgage bonds, all sums received for the transportation of coal over its rails, as a an sums received to the the interest of the \$5,000,000 in bonds to be indorsed by the Erie. These payments were to be made monthly, and the Boston, Hartford and Erie was to make up the amount necessary to pay the interest on the bonds whenever any deficiency existed.

It was also agreed that all payments by the Erie for the account of Boston, Hartford and Erie, were to be valid liens on the property of the latter.

Teunessee and Pacific Railroad .- The stockholders in the Tennessee and Pacific Railroad Company ratified the recommendation of the directory in the proposition to issue 160 mortgage bends of \$1,000 denomination each, the same or so much thereof as may be necessary to be applied in payment of the remaining

# The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, Jan. 31, 1873.

Trade in a wholesale way has fallen off materially during the past week, and the markets for many leading staples of domestic production, as well as of foreign importation, have become 'dull,' with some depression if not decline in prices. The most important exceptions to this statement have been in cetten and spirits turpentine—two important Southern staples. More snow has fallen, and in despair of seeing the accumulations removed from the streets, people have resorted to a more general use of sleighs, so that the facilities for transportation are no worse, though still so that the facilities for transportation are no worse, though still very expensive, being two or three fold the regular charges. Accounts from the interior, and especially the Northwest, state that the railroads are much obstructed with snow, and travel and transportation in ordinary vehicles greatly impeded by the intense cold as well as by the impassable condition of the roads. No doubt these facts in a measure account for the prevailing dulness in what is termed the "jobbing trade."

[For information respecting cotton, brendstuffs and groceries,

see special reports.]

Provisions have been only moderately active, and in some particulars—short clear bacon being the most notable—prices have not been fully sustained. There has been a pretty general decline in hog products at the Western markets, which is partly the result of the delay and expense of getting merchandize to the seaboard. But there has been also a considerable increase in production, of which the following are the latest statistics:

Hog nacking at Western points from Nov. 1 to Jan 25 for four.

Hog packing at Western points, from Nov. 1 to Jan. 25, for four

The statistics for this season are not so full as those for last The statistics for this season are not so full as those for last season, and there is probably very little difference for the three months. To-day pork was without essential change, new mess sold at \$14 05 for March. Bacch was easier and more active at 7@7½c. for Cumberland, and 7½@7½c. for short clear. Lard was firm and future more active; prime Western steam 85-16@8½c., spot and February; 8½c. for March, and 8½c. for April. Dry salted shoulders, 5½@5½c. Pickled and smoked meats very firm. Butter shows 2@3c. advance over last Friday. Cheese has advanced to 15½@16½c. for prime to choice.

Freights have been irregular. Rates for grain have been 71@

Freights have been irregular. Rates for grain have been  $7\frac{1}{3}$ @  $7\frac{1}{4}$ d. for corn, to Liverpool by steam, with a fair business. The Glasgow steamer took 48,000 hushels corn last evening at  $6\frac{1}{4}$ d., and a London ship several thousand bbls, flour at 2s. 6d. Cotton rates are higher, and the Liverpool steamers have taken several thousand bales at 11-32@7-16d. Vessels have been scarce, but we rotice charters to Cork for orders at 7s.@7s. 3d. for grain, 7s. 6d. for refined petroleum, and 9s. for naphtha. To-day there was

Wool has continued dull and depressed; domestic fleece, 60@ 70c.. and Cape 37@41c. currency. Tallow has been more active and firmer at 84@9c. for prime country and city. Whiskey has declined, but closed active at 93@934c. Strained rosin has declined to \$3 75. Spirits turpentine advanced to 68c., but closed declined to \$3 75. Spirits turpentine advanced to 68c., but closed American 45@50c. Clover-seed has been active for export, prices showing a turther advance to 9½@10c. per lb. Hides have been firm, and close more active. Fish have continued active and firm, and for foreign fruits there is some improvement in the

demand.

Petroleum has been depressed by the scarcity and high rates of ocean freights, and the difficulty of parties in handling purchases for January delivery. Crude is again down to 9c. in bulk, and refined quoted nominal at 20½c. in bbls., and 27½@28c. in cases. To-day 3,000 bbls. sold for May delivery at 21½c.

Tobacco has been steady for Keutucky, with some improvement in the volume of business, sales for the week aggregating 700 hhds., of which 400 hhds. for home use, and 300 do. for export. The following are revised quotations: Old crop—lugs, 10@10½c.; leaf. 11@16c. New crop—lugs, 8@8½c.; leaf, 9@12c. Seed-leaf has been quiet. The demand for export and the home trade has been seriously affected by the inclemency of the weather; transactions have been mainly of a retail character, embracing 10) cases, crop of 1870, 10@14c.; 100 cases Connecticut, crop of 1871, at 48@60c., and 100 do. Pennsylvania, crop of 1871, at 18.@25c. Spanish tobacco quiet; 200 bales Havaua sold at 97½c.@\$1 i0.

Manila hemp is dull and quoted at 10c. gold. Calcuita linseed has advanced with the sale of 6,000 bags from store at \$2 60 gold, and now held higher.

and now held higher.

Exports of Leading Articles from New York.
The following table, compited from Custom House returns, show the exports of leading articles from the port of New York since January 1, 1873, to all the principal foreign countries, and also th totals for the last week, and since January 1. The last two line show total values, including the value of all other articles beside those mentioned in the table.

## COTTON.

FRIDAY, P. M., January 81, 1873.

By special telegrams received to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cetton for the week ending this evening, Jan. 31. It appears that the total receipts for the seven days have reached 114,616 bales against 135,493 bales last week, 136,225 bales the previous week and 133,235 bales three weeks since, making the total receipts since the first of September, 1872, 2,253,337 oales against 1,916,479 bales for the same period of 1871-72, showing an increase since September 1, 1872, of 336,858 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of the five previous years are as follows:

| Received this week at-                                                                    | 1873.                                                         | 1873.                                                                          | 1871.                                                                              | 1870.                                                                           | 1869.                                                                         | 1868.                                                                          |

From the foregoing statement it will be seen that compared with the corresponding week of last season, there is an increase in the exports this week of 53,027 bales, while the stocks to-night are 13.732 bales less than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to Jan. 24, the latest mail dates.

The market the past week has been fairly active and bnoyant, and a decided advance in prices has been established, especially for cotton on the spot and for delivery in the winter and spring months, the summer months being neglected, and showing comparatively little improvement. Closing prices for low middling uplands, compared with those of last Friday, indicate an advance for spot cotton of ½c; for January contracts, 7-16c.; February contracts, &c.; March. 7-16; April, 13-32; May, 3-16; and for June only 1-16c. The export demand has been more active in sympathy with the improvement at Liverpool. At the same time the receipts at the ports early indicated a falling off as compared with the two preceeding weeks, though still showing a moderate gain over the previous season. Last night for the six days, as reported to the cotton exchange, the total was about twenty thousand bales less than the same period of the previous week. To-day, however, the receipts were larger, and although the accounts from Liverpool were better, the increased receipts together with firmer freights, scarcity of room, and a decline in gold prevented any improvement here, the close being in fact barely steady. For any improvement here, the close being in fact barely steady. For futures the demand to-day was less active, and for the later months prices were 1-16@½c. lower than yesterday. The prices for futures last reported were (basis low middling) 20½c. for February 20 13-16. for March, 21 1-32, for April, 21 5-16c. for May, and 21-5-16c for June. The total sales of this description for the week are 133,850 bales, including 100 tree on board. For immediate delivery the total sales foot up this week 16,912 bales, including 12,288 for export, 3,65i for consumption, 136 for speculation, and 837 in transit. Of the above 2,864 bales were to arrive. The following are the closing outstions to-day: ing are the closing quotations to-day:

WEATHER REPORTS BY TELEGRAPH.—There has been one heavy rain at New Orleans the past week. At Mobile it has rained on three days, but as the week closes there is a favorable change. Our correspondent at Montgomery states that it has been very cold there, but that it is now moderating, with indications of rain. It has rained on two days at Macon, and the same at Columbus. At Savannah it has rained on four days, and at Charleston three days. At Memphis it has snowed on three days; the rivers are ice-gorged; the crop is being marketed as freely as the weather will permit: there has been a heavy loss of unpicked cotton; a third of the Memphis stock is now awaiting shipment which cannot be moved on account of the weather. Our corres. pondents at Nashville also state that they have had snow there and excessively cold weather. The thermomether at Memphis has averaged 23; Charleston, 45; Savannah, Macon and Mobile, 43; Columbus, 45; and at Montgomery, 41.

EUROPE—MOVEMENT OF COTTON FOR 1872.—In our editorial columns will be found the official figures showing the movement of cotton in Great Britain and each of the prominent Continental cities during 1872. We have brought together, in one article, all these reports, that our friends may have them in convenient form for reference.

AVERAGE WEIGHT OF BALES.—There has been considerable discussion in this market with regard to the average weight of bales this year, an opinion prevailing that the bales were lighter than the average of last crop. For the purpose of testing the point we have obtained from each prominent Custom House in the South a return of the exports to foreign ports, in bales and pounds, from Sept. 1, 1872, to Jan. 1, 1873, and by dividing the pounds by the bales, the result reached is of course the average weight of the amount exported. The figures we have thus received are as follows:

|               | Total   | Total       | Average |
|---------------|---------|-------------|---------|
| Exports From. | Bales.  | Pounds.     | weight. |
| Galveston     | 51,668  | 25,090,239  | 485     |
| New Orleans   | 339,338 | 152,890,772 | 450     |
| Mobile        | 36,057  | 17,871,063  | 495     |
| Savannah      | 176,696 | 82,021,694  | 464     |
| Charleston    |         | 28,947,828  | 438     |

For Memphis cotton we applied to Messrs. Gates, Wood & Co. of that city, and they state the average thus far to be 463 pounds. We have no doubt that they have obtained this result after considerable investigation, as they are always very careful in their statements. Applying then the foregoing averages to the total receipts at the ports up to Jan. 17, and we have the following:

| Port.       | Total Receipts. | Average<br>Weight. | Total Weight. |
|-------------|-----------------|--------------------|---------------|
| Galveston   | . 195,751       | 485                | 91,939,235    |
| New Orleans | . 582,667       | 450                | 262,200,150   |
| Mobile.,    |                 | 495                | 103,701,015   |
| Savannah    |                 | 464                | 201,557,424   |
| Charleston  |                 | 438                | 106,748,046   |
| Memphis,&c  |                 | 463                | 156,166,196   |
| Total       | . 2,003,315     | 461                | 925,312,066   |

According to this statement the average weight of the bales marketed up to January 17, is 461 lbs. Of course this does not necessarily determine what the weight of the crop is to be for two reasons: 1. The bales early marketed frequently differ in weight from the later marketings. 2. Some of the ports have probably received a much larger proportion than other ports, of what will be their total receipts. For instance, Mobile will only receive during the remaining months about one-sixth of the amount of the arrivals at New Orleans during the same time; as this will change the proportion between heavy and light bales, of course it would change the result.

amount of the arrivals at New Orleans during the same time; as this will change the proportion between heavy and light bales, of course it would change the result.

Last year we gave the average weight of bales (obtained in the same manner) at New Orleans 458 lb., Mobile 500 lbs., Texas 494 lbs., Savannah 478 lbs., and the total average was probably about 468 lbs. We thus see that there is undoubtedly, up to the present time, a small falling off, say on an average 7 lbs. per bale, of a little over fifty thousand bales in a crop of 3½ million bales. A reason for this decrease in weight may be found in the fact

| that bagging is  | cheaper than | cotton. Th | us to each | bale there |

BOMBAY SHIPMENTS.—According to our cable dispatch received to-day, there have been no shipments from Bombay to Great Britain the past week and only 2,000 to the continent, while the receipts at Bombay, during the same time have been 23,000 bides. The movement since the first of Immury is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, Jan. 30:

—Shipments this week to ——Shipments since Jan. 1 to — Week's Great Com.

From the foregoing it would appear that compared with last year there is a decrease this year in the week's shipments to Great Britain of 22,750 bales, and that the total movement since Jan. I shows a decrease in shipments of 40,000 bales over the corresponding period of 1872.

Our cable despatch to-night states that the reports with regard to the crop are all very favorable.

GUNNY BAGS, BAGGING, &C.—The market for bagging has ruled quiet the past week, with but little doing. Dealers are filling orders at 13@13½c. Can buy from second hands round parcels at 12½c. cash for immediate delivery, and 13½@14c. C.O.D. tor March, April and May delivery. In bags there has been quite a movement the past week, and some 2,000 bales have changed hands at about 9c. gold in bond, of which some 600 bales were taken for export. Holders are now firm at 15c. cash, and there are several offers in the market at 1½c. cash, but no seliers at these figures. Stocks in New York and Boston together are only about 5,000 bales, and arrivals are likely to be very small for a long time to come. Butts are quiet and steady at 2 1-16c.2½c. cash and time, latter being outside price for choice bagging quality. Latest sales are 2,000 bales Boston at 2½@2 3-16c. cash; 450 bales here at 2½c. cash and time. At the close we quote small parcels as still to be had at 2 1 16c. cash, though 2½@2½c, is the generally asked price. Some holders will not concede a fraction, but are firm at 2½c.

VISIBLE SUPPLY OF COTTON MADE UP BY CAILLE AND TRLE-GRAPH.—By cable we have to night the stocks at the different European ports, the India cetton affoat for all of Europe, and the American affoat for each port as given below. From figures thus received, we have prepared the following table, showing the quantity of cotton in sight at this date (Jan. 31) of each of the two past seasons:

1873.

1872.

| two past seasons:                      | 1873.   | 1872.   |

| Columbus    | 1,574       | 760        | 11.891    | 786       | 1.281     | 10,116     |
| Macon       | 1,594       | 1,880      | 14,034    | 975       | 1.352     | 13,325     |
| Montgomery. | 772         | 1,927      | 9,593     | 520       | 1,602     | 8,113      |
| Selma       |             | 1,499      | 3,978     | 951       | 1.084     | 5,277      |
| Memphia     | 10,338      | 8,502      | 35,071    | 12,417    | 10,016    | 30,360     |
| Nashville   |             | 2,409      | 4,454     | 1,566     | 2,904     | 5,590      |
|             |             |            |           |           |           |            |

21,764 21,813 91,479 21,501 22,117 89,289 The above totals show that the interior stocks have decreased during the week 48 bales, and are to-night 2,190 bales mire than the same period last year. The receipts have been 263 bales are then the same week last year.

more than the same week last year.

The exports of cotton this week from New Yerk show a decrease since last week, the total reaching 9.945 bales, against 12,163 bales last week. Below we give our table showing the exports of cotton from New York, and their direction for each of the last four weeks; also the total exports and direction since September 1, 1872; and in the last column the total for the same period of the previous year;

| 100                                          |            |             |             |                                         | TUE             | CH                    | KUNICLE. SHIPPING NEWS .-- The exports of cotton from the United States the past week, as per latest mail returns, have reached 73,476 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRON-ICLE last Friday, except Galveston, and the figures for that port are the exports for two weeks back. With regard to New York we include the manifests of all vessels cleared up to Wednesday night of this wesk:

| Total                                                                                                              | bales.         |

## BREADSTUFFS.

FRIDAY P. M., Jan. 21, 1873.

The market has been generally quiet the past week, and prices have shown very little fluctuation.

Flour has arrived more freely and the offerings of some grades have somewhat increased. The demand at the same time has been quits moderate. The fall of more snow has increased the difficulty and expense of the movement of freight in the city. Shippers have not been inclined to operate except at inside prices, and some business has been done at easier rates, including lines of good extra State and Western at \$7 60, in store. The delivery of flour previously sold on contract, and long delayed, has also tended to reduce the demand. To-day there was rather more inquiry and prices firm, partly from sympathy with wheat.

The wheat market has been almost at a stand-still, but prices, though unsettled, have latterly had an upward tendency. The principal demand has been from local and Southern millers. Fine red embers, whether spring or winter, are scarce, and parties in want of these have been compelled to pay more money. The poor qualities of spring wheat, arriving by rail, have been sold at very irregular and generally lower prices. Thus fair amber winter has sold at \$1 971@2, and good to choice No. 2 spring, \$1 67@1 72, while car lots of No. 3 spring have sold at \$1 54@ 1 55. White wheats have been scarce, and prime to choice have sold at \$2 10@2 20. To-day the market was quiet, but firm, with a milling demand, and No. 2 Milwaukee sold at \$1 721 afloat.

Indian corn has been firm, with a moderate demand for export, but the home trade has been small. Receipts by rail continue quits moderate, and the stock has been materially reduced. Lats transactions embrace new Southern yellow at 65@66c., new Western mixed at 65@661c., and old Western mixed at 641@641c. in store, and 661@67c. afloat. White corn has been depressed and unsettled. To day the export demand was good, with a dozen boat-loads sold at 641@641c. for prime old mixed in stors.

Rye is scarce, and prices show some recovery. Barley continues to meet with an urgent demand, and prices show some further advance, it being apparently impossible to get forward supplies from the West.

Oats have been higher, but the advance checked the demand and the market has latterly been dull and weak. To-day there was more activity, with sales of old mixed at 53½c. in store, and 551c. afloat, and new do. 54 &55c. afloat.

## GROCERIES.

FRIDAY EVENING, Jan. 31, 1853.

The great difficulty that is experienced in moving goods about the city and in the harbor is having the effect of curtailing business in all of the markets, and we have less activity to report than was noticed for a few weeks previous. There has been a fair inquiry for teas and molasses, but other goods have moved rather slowly, and sugars have shown an actual decline. Spices have been selling a little more liberally, with cloves very strong at an advance. In foreign and domestic fruits very little bustness has been done, and the market is almost wholly unchanged.

#### TEA.

The line trade in tess has quieted down somewhat during the week, and the movement for a few days toward the close has been on a not very liberal scale, Jobbers continue to buy to a moderate extent, their purchases being stimmlated more by the buoyancy of our market than by the actual requirements of their trade. Holders of teas in this market are very firm, and on some grades the tendency of the market is rather in favor of sellers. New crop Onlongs are held with especial trainers at a shade better prices through the quotable range shows no ulteration. Greens are selling in the better grades, and bring full rates. Japans are rather quiet at the moment, but rule firm at full previous rates. The general position of the market as regards stocks and affoats is fairly favorable, and holders show a determination to maintain the current rates which pay a moderate profit on the cast. We note sales of 9,000 half chests greens, 1,500 do. Oolongs, 1,000 do Japans, and reversitors at auction.

There have been no imports at New York the past week. The receipta indirectly have been 79 pkgs by steamer and 3,936 by rail overland

The following table shows the imports of Tea into the United States from January 1 to date, in 1873 and 1872:

Atlantic ports, 1873...lbs. 1.675,794 2.015,554 2.142,519 5.565,981 Atlantic ports, 1872.... 2.774,72 2.056,914 915,491 5.7565,787 The indirect receipts at New York, principally overland receipts from ban Francisco, have been 9.006 pkgs, since Janusry I, against 14,766, ast year Imports at San Francisco for the year 1872, were 1,290,519 lbs. of China and 2,349,464 lbs. of Japan tea.

#### CORPUSE.

The business in the coffee market since our last report has been in marked contrast to that of several preceding weeks, and has been something of a surprise to holders of the herry. The bheral movement of all grades from this market and the other ports into the interior, which has been going on for some time past, was sufficient to supply retailers freely, and with their sales restricted for the past few weeks by unusual weather, the requirements of distributors have not been very pressing for some days. This fact, coupled with the high range of values, explains the duluess which has prevailed both on the Brazil and Iudia grades. The market has ruled very steady, as there is comparatively little coffee of any description here to sell, and the pressure would not induce holders to accept any lower rates than are now asked and quoted, even if a positive offer on a good-sized lot were made. The Rio tele quoted, even if a positive offer on a good-sized lot were made. The Rio tele-gram which was received on Wednesday quoted no further advance but reported very light leadings, shipments and purchases for the United States, and would have been regarded as very favorable had there been any husiness doing. As it was, however, its effect was lost. The sales for the week so far as reported have been on a basis of last quotations, which we repeat. The transactions include 3,538 bags Rio, ex "Jona," 3,000 bags, the balance ex " Empreza," the latter in lots. At Baltimore, 5,500 bags ex "Yamoiden,"

Imports at New York the past week have included 3,506 bags. Rio, per "J. F. frichsen," 3,600 do. do., per "Sjegasten," 1,000 do. Santos, per "Rosarlo;" 2,509 mats Java, per "Rocket;" 2,978 hags Lagnayra, per "John Boulton;" 50 do. St. Domingo, per "M. E. Higgins" and "Perit," and 93 do. sundrles. The atock of Rio Jan. 30, and the imports since Jan. 1, 1873, are as follows:

## STIGAR.

3,439

1.276

The demand from refiners remains light, and the sales in this direction during the past week have been small in the aggregate. The sales are mainly of box sugars, with some bags selling, but very little doing in hhds. ('uba gugara are quoted on a basis of 9009%c. for fair to good; but this range la wholly nominal in the absence of trade, and the transactions in Centrifugal and Clayed sugars, which have moved to a moderate extent, show a lower range. We reduce quotations 'sc. on all grades, though some parties are atill quoting Cubas at nominally nuchanged figures. Refined sugars have been selling fairly in view of the general dulness in groceries, but the movement has not been sufficiently active to prevent a softening of the market, and we shade quotations a fraction from those given in our last report. Hards are down to 12@12%c., while softs show a fair degree of steadiness at 11%@ 115gc, for standard A's. The sales since our last include 172 hhds Demerara, 9%@10%c.; 380 hhds. and 200 boxes centrifugal, 9%@9%c.; 4.050 boxes clayed and centrifugals, 84@104c.; 309 hhds. Porto Rico, 94c.; 570 hhds, Cuba, 94c.; Total...... 5,855,776 9,520,983 3,522,418 1,871,755 100 do. new do. 8%@9c.; 4,500 haga Pernambuco, 6%c.

Imports at New York and stock in first hands Jan. 30, were as follows:

#### MOLASSES.

The offerings having embraced a little more desirable stock for boilers there have been some transactions closed in foreign grades of molasses, the prin cipal business being the sale of new Cuba, recently arrived, and the first of the crop that has been received here. The cargo consisted of 351 hhds. and 37 tes., all suitable for boiling, which were placed at 30c. The movement in foreign descriptions has also included a cargo of Porto Rico, and a considerable amount of English Islands has been taken out in trade lots. The range of prices on these goods is well sustained, and shows no quotable change from previous rates. The demand for domestic continues liberal, and sales have been effected at full former values, as bigh as 75c. having been realized ou There is but little margin on shipments from New Orleans, the prices there, it is said, being pretty well up to our market. Syrups continue in liberal demand, with sugar stock selling mostly to the South, and but little remaining here to dispose of. Molasses syrups are scarce, and are very firmly held at 22c. for bbls. and 18@19c. for hhds., with no sales here. The transactions since our last foot up 351 bhds, and 37 tes. new crop Cuba, for boiling, at 30c., 180 bhds. Porto Rico at 45\%55c., in lots, and about 1,500 bbls. New Orleans, to the trade, at 65\%75c.

The receipts at New York, and stock in first hands Jan. 30, were as follows:

## THE DRY GOODS TRADE.

Fniday, P. M., Jan. 31, 1873

There has been a fair demand for full packages of dry goods during the week, but heavy shipments have been prevented by the nlmost impassible condition of the streets. Orders from buyers in the more remote localities who have not yet visited the market in person are coming in to a fair extent, but these are delayed somewhat by the storm which has blockaded many of the Western railroad lines. The same cause has delayed collections, but aside from this there has been a fair degree of freedom in the receipts, and the general features of the market are as favorable as for some time past. Resident buyers for out of town houses bnying largely have begun their purchases, and are making selections of fair amounts for opening their spring stocks. Local jobbers are also taking staple goods in considerable amounts, and the aggregate movement from first hands is fully up to the average for this period of the year. The market continues strong on all lines of cotton goods, with the general tone favoring sellers. Woolens are strong, though the distribution is not very active in any class of goods, owing to the extreme and unusual caution that all buyers are exercising in the matter of spring purchases. The prospects continue favorable for a full business during the spring season, and holders of goods are very hopeful.

DOMESTIC COTTON GOODS .- The demand from the trade for full parcels of dry goods has run mainly on brown cottons, and the sales of the more popular makes of these fabrics have been on a fairly liberal scale. The agents for all of the most favorably known.brands continue to report their goods as sold fully up to the production, and many have been unable to keep pace with their orders, which have been in excess of the productive capacity of the mills. Prices remain very strong on all grades of unbleached cottons, and are wholly unchanged since our last report. Bleached goods have been selling freely in the fine and medium grades, which are going into distribution here and in the interior, and are also wanted by shirt makers, who are at present busily engaged. Fine heavy goods are tending upward in consequence, and there has also been an improvement on wide sheetings to the extent of 2½c per yard. The entire list is buoyant without general change. Prints have been offered in more liberal assortments, and there has been a consequent improvement in the trade in medium Light effects are also selling moderately, but the movement in these styles is mainly in shirtings, it being rather early for any important demand for very light dress prints. Quotations are unchanged and remain very firm. The Pacific Mills have opened their spring styles of lawns, percales and cretonnes, and are displaying some very choice effects, which have already been liberally taken up by the better class of trade. Colored cottons are not in very liberal supply and rule steady, but are generally quiet.

DOMESTIC WOOLEN GOODS.—The principal buyers during the past week have been the clothiers, who are getting their require ments pretty well filled and are purchasing rather less liberally at the close. Low grades of all wool eassimeres and cotton warp goods are selling to a fair extent, but the better qualities are slow of sale. The current sales and the distribution up to this time have been below the average for January, and holders are somewhat disappointed in the month's business. The severe weather that has prevailed all over the country is undoubtedly the cause of this dulness, in a great measure, and holders are hopeful for a better trade during February, but the prospects are less encouraging for an advance in rates. Manufacturers are endeavoring to effect a combination for the purpose of reducing the production one half for ninety days, with a view to depressing wool and advancing goods. The latter result might be attained, but there is no prospect that the combination will be really formed. Worsted dress fabrics for the spring trade are being freely offered and open very firm.

Foreign Goods.—Importers have been engaged in getting their spring stocks in order, but their business during the week has not been very liberal and there is but little to record in connection with the trade in foreign fabrics. The winter is too severe yet for any activity in spring goods, and jobbers have delayed displaying their spring assortments in consequence. Late in the week there have been more western buyers here, but they have not begun to operate as yet. Quotations, where they have been established at all, are very firmly maintained, but in the absence of sales goods are not quotable,

Pamphlets and all Particulars upon Application.

S. W. LAPSLEY.

J. E. BAZLEY LAPSLEY & BAZLEY,

47 EXCHANGE PLACE, NEW YORK. Stock & Gold Privileges a Speciality.

"Stock & Gold Privileges a Speciality.

"Stock Privileges."—\$100 and commission will purchase a first class contract, giving you the privilege of calling or delivering (i. e., being "long" or "short,") 100 shares of any active stock, at any time in 30 or 60 days. \$125 and commission will purchase an A1 contract (same time and terms as stocks) on \$50,000 American gold coin. These contracts, known as "puta" and "calls" are now used by many operators in preference to speculating on a margin, as no further risk or outlay is incurred beyond the amount you decide to risk, and they are the very best mode of operating for those who are "out of town," or "up town." "Fivileges" can se had from 100 to 10,000 shares of stock, or \$10,000 to \$1,000,000 gold. For further particulars write or send for our "Explanatory Circular," Settlement to be made at time of purchase, or on our delivery of the contracts to your agents or bankers in New York. All "puts" and "calls" negotiated by us are sigued by bankers and brokers of acknowledged responsibility and credit. We are executing orders from all the leading cities in the United States.

Subscriptions and Advertisements will be taken in London at the office of the Chronicle, No. 5 Anstin Friars, Old Broad street, at the following rates:

Annual Subscription (including postage to Great Britain) £2 2s.

Half-Yearly 4.

Half-Yearly 15s.
Advertisements, 9d. per line each insertion; if ordered for five or more it nsertions, a liberal discount is allowed.

THE RAILWAY MONITOR—A Journal of general Railroad Intelligence, intended to supplement the brief railroad news contained in The Cheonyles, is published monthly on the fifteenth of each month.

Subscription price per year (including a file cover the first year). \$4 00 to subscribers of the Chronicle 3 00

The Publishers cannot be responsible for Remittances unless made by Drafts or Post-Office Money Orders.

To A neat file for holding current numbers of the Chronicle is sold at the office for 50 cents; postage on the same is 20 cents. Volumes bound for sub-acribers at \$150. The first and second volumes of the Chronicle are wanted by the publishers.

## THE RAILWAY MONITOR.

The first number of the RAILWAY MONITOR (monthly) was published January 15, 1873.

The characteristic feature of the Moniton consists in its furnishing the most complete reports and freshest intelligence concerning every railroad in the country, so classified and indexed that each item of information can always be referred to with the utmost convenience.

A Handsome File Cover or Binder for current numbers, is furnished gratis to every new subscriber for one year.

A Standing Index is continued from number to number, so that all railroad matters published within the year can be referred to by the last number issued.

The Monitor is in no respects intended to take the place of th Railroad Department of the Chronicle, but is expressly intended to supply a want long felt by the readers of that department, in giving numerous reports and details of railroad information, which could never be given in the limited space allowed in the columns of the latter.

## A NEW METHOD OF CLEARING-HOUSE SETTLEMENT.

In view of the frequent locking up of greenbacks the project has been revived in the Clearing-House for the banks in their daily settlements to make payment to each other in national bank notes instead of in greenbacks. About two years ago this scheme was first proposed, and it was found that there was but a single bank in the Association that favored it. The proposition, we believe, could not get fairly before the meeting for lack of a seconder. Now, however, a different spirit appears to be growing up among the banks; and a minority comprising several leading institutions are reported to favor the innovation. By this minority an active effort is making to induce the opposing banks to give way, and the scheme might perhaps have succeeded if it had been brought forward during the monetary pressure of November and December. Now, however, it provokes the determined hostility of a large majority of the banks; and there is no chance for its success except as a pos. sible remedy against some severe stringency hereafter.

The objections to the scheme arise chiefly out of the stimulus it would exert to promote expansion, the tendency to which is already threatening the stability of our national banking system. The new plan, if adopted, would, it is argued, be equivalent to an inflation of 50 millions. In its favor the instance is cited of the London Clearing House. which formerly made its settlements in bank notes, and now makes them in cheques on the Bank of England without the transfer of either money or notes. It is also argued that the new proposal is in strict harmony with the 32d section of the National Currency Law, which provides that every bank "shall take and receive at par for any debt or liability to such association, any and all notes or bills issued by any association existing under" the National Currency Law. Its supporters also contend that there is no other method by which the greenback reserves of the banks can be protected so long as the national banks in the interior do not redeem their notes, and these bank notes consequently accumulate here and become a troublesome burden to our city banks. This last reason is in fact the foundation of the whole scheme and the secret source of whatever of popularity it enjoys. If we can compel the banks to redeem their notes, little more will be heard of this Clearing House project, A better remedy against the inconveniences it contemplates as well as against many others of still greater magnitude, is the efficient redemption of the National bank notes as is elsewhere fully shown. Those bank officers who object on such good grounds to the use of National Bank notes in the Clearing-House daily settlements cannot do a greater ser. vice in vindication of their views than to urge in every possible way the early adoption of an effective system of metropolitan redemption. If this be done, and such a redemption machinery be practically set in operation, the scheme referred to, with other projects for currency and credit expansion, can probably be kept in check. Otherwise their suppression will be a task of much difficulty and doubtful success.

How far the proposed settlement of the daily balances in bank notes would really tend to prevent the success of the cliques who so often disturb the money market by locking up greenbacks admits of grave doubts. Such operations are seldom attempted but in an excited state of monetary affairs, when the banks are expanded and have allowed their average reserves to run low. The adoption of this new Clearing-House regulation would, in the opinion of several eminent authorities, make matters worse by increasing the disposition, which is already too strong, on the part of our banks to run their reserves low, with a view to make as large profits as possible, and to enlarge to the utmost productive limits the aggregate of their loanable assets.

Such plans as we have discussed above receive more attention just now in consequence of the tardy return of the long expected ease to the money market. For two or three days past there has been a noteworthy stiffening of the rates of interest. The currency, both national bank notes and greenbacks, which had begun to accumulate considerably in our banks, has ceased to do so; and the general expectation of returning ease has been disappointed. The conflicting rumors as to the Syndicate, its probable success, and the influence which the resulting operations in foreign exchange might exert on the general movements of finance, all tend to increase the prevailing uncertainty. This agitation of teeling is likely before long to be somewhat allayed by one aspect which has been much discussed, of the Treasury call yesterday for 100 millions of Five-Twenties of 1862. These bonds, it seems, are nearly all held in Ger many, except \$8,680,500, which belong to our National Banks. As Germany is expected to take few if any of the Syndicate bonds, the Germans, it is argued, will have some 90 millions of new money added to their overflowing reserves of unemployed capital, and there will be so much the more probability of their investing in our best railroad, municipal, and other securities.

## FINANCE LEGISLATION AND ITS PROSPECTS.

The fear that Congress will venture on some finance legislation of an organic nature has had such a depressing effect on business all over the country at certain critical periods during several years past, that our National legislators, if they could appreciate the cost to the nation of such a shaking of public confidence, would be less ready than they have been to press their schemes. We offered some weeks ago the opinion that no financial bills of an important character would be passed this session. The vote of Wednesday on the Sherman bill seems to sup. port this view, which is now extensively held, notwith. atanding the activity of a number of influential persons in favor of some of the reforms lately proposed. If the public generally could be convinced beyond doubt that these projects will really miscarry, and that no new laws disturbing the tranquillity of our monetary organism have the slightest chance of success, the gain to our industrial wealth might safely be estimated at a very large sum. It is worth while, therefore, to examine the matter, and to find out what is the evidence on which rests the belief that Congress cannot and will not do anything to disturb seriously the finances of the

The chief reason is that less than usual has been attempted

since the war, the early days of each session were marked by an amazing activity on the part of ambitious Congressmen, who from desire of popularity, or some other motive, embodied their crude notions of financial reform in bills of more or less pretension. The first part of this session bas been almost exempt from these mischievous bills, and even now that it is drawing to a close, the number accumulated is unusually small, showing either that the average Congressman is getting too well informed to tread recklessly on dangerous ground, or else that the favorite projects are so numerous and so conflicting as to swallow up each other. Anyhow there seems to be a general disposition to leave the difficulties of the financial question to be grappled with by the next Congress.

This is particularly evident in the vote on Wednesday which killed the Sherman bill. This measure was espe cially contrived with a view to unite all conflicting parties. The advocates of specie payments were conciliated by the provision that greenbacks were to be redeemed in gold or bonds on demand at the National Treasury. The inflationists were favored by the so-called free banking clause, which allowed the national banks to issue any amount of notes that they chose on the simple condition of depositing bonds at Washington and promising to redeem the notes on demand, without any other guarantee whatever. Another class of expansionists were propitiated by the provision about reserves. Practically every bank was to be exempted from the obligation to keep a reserve on hand of sufficient cash to give a security to the public against the danger of reckless banking. This cash reserve of late years has been rigorously demanded of the banks. The want of such a safeguard caused the panic of 1857, or at least gave to that estastrophe its chief terrors. The men who would reform our financial system by going backwards to that perilous state of things were represented in Mr. Sherman's bill, which enacted that after July 1, 1874, no bank should be compelled to keep any more reserve than in its wisdom it might deem proper. And lastly, another class of demands was met by throwing open the national banking system, with all its supposed security to the public and its conses quent attraction of deposits, to any one with capital enough to deposit \$10,000 in bonds at Washington. Here, then, we have as it were the whole of the projected reforms concentrated into one single measure, and yet it was rejected. If such a measure could not secure votes enough to pass it by combining the whole scattered forces of the financial reformers into one compact body, there is surely little hope for any one of those schemes to succeed alone.

These are some of the reasons for thinking that no figancial legislation of moment will be done during this session. A more powerful safeguard against such legislation is, how? ever, the conviction of certain rising men, that no political capital is to be made out of any such schemes. The people want the currency to be let alone until some safer and more promising reforms can be devised. They are weary of the continual disturbance of the foundations of commercial prosperity by crude attempts to reach resumption by impossible methods. This conservative spirit is making itself conspicuously prominent all over the country. Mr. Morton on Wednesday gave utterance to it as the settled policy favoredby popular opinion. This conservative feeling is destined to grow more powerful all over the country. Some persons may see in it a deplorable dislike to resumption, and a desire to perpetuate an irredeemable paper money system. It is really a wholesome reaction provoked by the worse than useless tampering with currency legislation, and a remonstrance against the mischievous and costly disturb-The chief reason is that less than usual has been attempted ance by Congress of the organic conditions of monetary this year, or has been demanded by popular opinion. Ever equilibrium, industrial health and material growth.

## BANK REDEMPTION AS A PREVENTIVE OF STRINGENCY.

What are the real causes of the sensitiveness of the loan market which has compelled our merchants to pay so much for money since last October, and has only recently subsided? This question has attracted much attention, and cannot be too thoroughly explored, for upon it depends the prospect of stopping a return of the trouble next autumn with all its attendant mischiefs. One peculiarity of the late monetary pressure was its long duration, and the wide area over which it reached. In the previous years the fall activity in money was usually of short duration; and except when aggravated by ill-timed contraction, as in the fall of 1867, the movement was not so severe as to produce any very marked public anxiety. In the year referred to, which was the last of Mr. McCulloch's administration, he used the discretion reposed in him by the law of April 12, 1866, in such a way as to favor expansion of the currency in the summer, and when the fall arrived he contracted the currency so severely that the financial excitement and injury became intolerable; and in February, 1868, Congress took away the discretional power from the Secretary of the Treasury to control the volume of the currency. Unless in this exceptional case, and in one or two others like it, the fall stringency in money has not usually been very severe or extensive, and it has soon passed off. But for the last year or two it has been growing worse, and the question is what special causes have generated this new phase of the old evil?

Of course there are but three directions in which to look for the source of the mischief. It might originate either in currency derangement, or in defective supplies of capital, or in a disturbance of the public confidence. In either of these three directions the trouble might probably begin. But in one or other of the three it must have started. Our question, therefore, resolves i'self into several; and first as to financial confidence. It is notorious that the character istics of some panics exhibit a total loss of that credit and confidence which are a fundamental condition of indus trial activity and material progress. It is true that this loss of confidence is more or less present monetary revulsions, but in some it is much more promiuently the starting-point from which the trouble proceeds. Thus in 1857 the panic originated from the shock given to the community by the failure of the Ohio Life and Trust Company. Here the panic began, and it was from its origin that it was called a "credit panic"—that is, a panic started by a shock to credit or public confidence. The same is true of the Overend panie in England in 1866. That also was a credit panic. It originated not in the loss of capital absorbed in railroads like that of 1846, nor in a simple derangement of the currency like that of 1872, but in a shock to public confidence, a paralyzing ot credit. Applying these principles to our recent monetary trouble. we find that it was not connected with any loss of financial confidence. There was no lack of this sort. Credit was almost as lively and quite as active as usual. The startingpoint of the trouble was not in that direction at all.

Secondly, let us see whether the trouble originated in the currency. It is a well known principle of finance that if the active supply of money be suddenly contracted in volume, the result will be very different at various seasons of the year. In the height of the business season such a contraction does great harm. Not so in summer when business is quiet and currency accumulates in the banks. A curtailment of currency, at that season, is both a healthy and needful depletion. It frequently gives great relief to the monetary plethora. On this principle, redemption of national bank notes is an essential requisite of our banking system which must be adopted if the system is to last,

Redemption will curtsil the outstanding aggregate of the currency when it is not wanted, and no other expedient can do it. For want of such redemption our currency does not contract in the Summer as it should. Consequently when the Fail comes, with its activity of business, and its demand for an increase of currency, no responsive enlargement can be made, because the full maximum is outstanding, and having enjoyed a forced circulation when it was gorging the current of active money, it stimulated speculation then and checks legitimate industry now. It thus adds weakness to the monetary mechanism, and is, in fact, one chief cause of the stringency and financial derangement which we have lately suffered. Hence our remedy for the trouble is to compel the National Banks to redeem their notes in New York. How this remedy is to be applied is a point which we need not now discuss. What is essential to remember is that such redemption is as indispensable to the equable working of the money market as to the stability of the banks.

There is another cause to which the monetary sensitiveness has been with justice ascribed. It is the calling in of the 45 millions of Clearing-House certificates and the replacing them with National bank notes under the law of July 12, 1870. With respect to the future, however, this cause is of the less importance, as it has now spent its force, the last of the certificates having just about ceased their active life and having been for the most part replaced by the National Bank notes.

The third point which has been raised is whether the trouble of our sensitive money market is not due to an absolute lack of capital. It is no doubt true that several well known causes have absorbed and taken away a vast amount of our floating capital and depleted the money market, but the deficiency is believed likely to be made up from foreign sources, and from the rapid increase which is being realized in the vast supplies of our own capital at home. However this may be, the chief thing which remains to be done in order to prevent a return next Fall of the monetary stringency that has been so troublesome during the past few months, and a return of it in a probably worse form, is to enforce on the National Banks the immediate and paramount duty of redeeming their circulation in New York.

## FINANCIAL REVIEW OF THE MONTH OF JANUARY.

The month of January opened with a continuation of the exceedingly close money market experienced in December. On call loans to stock brokers rates were very high, and ranged frequently up to  $\frac{1}{5}$  per cent, and sometimes even to  $\frac{1}{7}$  per cent a day, in addition to legal interest. There was no material relaxation until about the middle of the month, when the more abundant supply of money coming from dividend and coupon payments began to be felt, and rates fell off accordingly. The improvement in commercial paper during the month was about 1 per cent. The monetary movement in January was, upon the whole, not very satisfactory, and the market was unsettled throughout; the bank reserves did not show so great improvement as was expected, and there was considerable disappointment in Wall street that a condition of permanent and settled ease was not reached.

Government securities showed a strong tone during the whole month, and advanced sharply in the last ten days. The completion of the new syndicate arrangement naturally had an important influence in strengthening prices.

Railroad stocks were only moderately active, and the important January advance "along the whole line" did not occur to the extent which had been anticipated. There were some exceptions in the case of specialties, which were affected by particular causes, but in regard to the general stock market, the fact that prices were high in December, and that the leading stock operators were not decidedly interested in an advance, were very important influences against an active upward movement.

The following table will show the opening, highest, lowest and closing prices of railway and miscellaueous stocks during the months of December, 1872, and January, 1873:

|                                                     |            | —Dec       | ember                      |             |            | Ton                        | aary      |            |

Gold opened at a low price, and, with the exception of moderate fluctuations, showed no important movement till about the 17th, when the premium went higher under the purchases of a party formed to engineer an advance. The occurrence of some large shipments of gold were also used as an argument for higher prices.

course of cold in january, 1873.

| Date.                                                                                    | Opening.                                                                                                     | Lowest.                                 | Highest.                                | Closing.                                                     | Date.                                                              | Opening.                                                                                                                    | Lowest.                                                           | Highest.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Closing.                                                         |

Foreign exchange was tolerably active in January, and ranged between 109½ and 109½ for prime 60 days' sterling. There were some borrowed bills placed on the market, at times, by stock operators, and on the other hand some considerable amounts of borrowed 60 days' bills fell due, creating a demand for short sight.

STERIJNG EXCHANGE FOR JANUARY, 1873.

## CURRENT TOPICS.

LOCAL STEAM TRANSPORTATION FOR MERCHANDISE.—It is to be hoped that our merchants and forwarders who have suffered such a serious interruption during the past few weeks from the almost impassable condition of our streets, will recognize the importance of organizing a movement looking to the adoption of some system that shall insure cheaper and better facilities for the handling and transportation of merchandise within the city limits. Several years ago we pointed out in these columns the important benefits that would result to our commerce from the construction of a tunnel around, and several tunnels across the city, with branches connecting with the principal freight depots built, or to be built, in the upper part of the island, and urged that the construction of a belt tunnel just inside the new bulkhead line be made a part of the plan for the improvement of our water fronts; but those who were most interested did not move in the matter, and an opportunity for undertaking such a work, better than any which will again offer, was lost. The necessity for some such improvement, however, becomes each year more apparent to those who deal in heavy and bulky merchandise, and it is not yet too late for our merchants to take the initiative in some well considered movement in the direction we have indicated During a part of every winter our streets are rendered almost impassable for heavy trucks by ice and snow, by which the difficulty and expense of transportation is greatly increased, and under the most favorable conditions of good weather and abundance of truckage accommodation, the cost of moving freights across the city is nearly, if not quite as great as the cost by entire rail or canal from Buffalo. By what system the transportation of local

freights can be most cheaply and rapidly accomplished, is a question deserving the attention of our most skilful engineers A great deal of study and labor has been devoted to the elaboratien of plans for the better and more rapid carriage of passengers, but the still more important question of providing for the handling and transportation of the ever increasing volume of freights pouring in upon us from a thousand sources and through an hun dred converging channels, has so far been almost wholly neglected.

POSTAL TELEGRAPHY IN CONGRESS.—The fact that the State Senate of Pennsylvania has adopted, by a vote of 25 to 1, a reso-Intion instructing the United States Senators from that State to vote against any legislation looking to the purchase or control of the telegraph by the Government, may be regarded as a fair indication of the tone of public opinion regarding the several schemes of that kind now before Congress. It would be well if other States should follow this good example, and declare immediately against all forms of Federal interference with private enterprise. But in the absence of any such action, it is gratifying to hear that In this case the lobby influence is likely to so divide the House of Representatives that there is but little chance of passing any of the bills now awaiting consideration. Each scheme has some friends who will labor zealonsly to secure its adoption, but whichever meets with most favor will be sure to encounter a powerful and united opposition. It is also understood that there is a wide difference of opinion between the Post Office Department and the committee having the matter in charge-the Postmaster General wanting the Government to buy the lines and turn them over to the Department to manage and operate in connection with the Post Office, while the committee are in favor of what is known as the Hubbard scheme, which incorporates a new company and gives it a monopoly of the telegraph business, under a nominal anpervision from the Postmaster General. In the one case the change would enormously increase the patronage of the Government, and create a great many lucrative offices to be filled by those for whom places cannot now be found; in the other it would be a great private "job," the only patronage attaching to which would be the creation of a small and unimportant bureau in connection with the Post Office Department. There is, besides a very respectable minority in the House that will oppose all forms of Government interference with the telegraph on principle, and several little cliques which favor the different bills that have been introduced from time to time, but which stand small chance of even reaching a hearing, at least until the proposition of the Post Office Department and the Hubbard scheme have been disposed of. It is quite certain, therefore, that no plan will have an easy victory, and between the conflicting influences there is ground for hope that they may all fall to the ground

A TRIBUNAL OF COMMERCE,-The Corporation of the city of London have given notice of their intention to present to Parliament a bill creating a Tribunal of Commerce, which shall be charged with the duty of hearing and adjusting all disputes which may arise relating to commercial transactions within the district of London. The tribunal is to consist of the Recorder and two "merchant judges," appointed for three years and chosen by the Lord Chancellor from among the skilled and experienced business men of the city. Before this court all cases of a business nature may be brought, but if either party in the case shall decline to appear and plead, all proceedings shall be at once ended and the dispute left to the legal courts. But when a question has been decided by the tribunal, appeal may be had to the courts on questions of law only; and the judgments of the tribnnal are to be made orders by the Superior Courts, as in the case of awards, &c., and are to be enforced in the same manner. The Lord Chamberlain is empowered to issue such general orders with the advice and sanction of the Recorder, as may be needed to regulate the practice of the tribunal, the modes of appealing from its decisions, the enforcement of its judgments, &c., and tho judges are to receive only such salaries as may be payable from the fees payable by those who submit their cases to it for adjudication. Similar tribunals have been established for some years in some of the Continental cities, where they have been found very useful in enabling merchants to settle their differences with out having recourse to the ordinary courts of law, thus saving time and expense, and obviating the necessity of employing counsel, as in the Tribunala of Commerce the parties to a suit may plead their own cases. The plan has been suggested in this country, as a means of enabling merchants to adjust their differences without waiting for the slow process of the courts, but

whether from a fear that the appointing power would be used in the selection of incompetent or dishonest judges, or from other causes, it has not met with favor. In London, however, it is believed that the plan will work well.

COMMERCIAL ENTERPISE IN BOSTON.-The opinions so con fidently expressed that the fire would stimulate rather than check the commercial progress of Boston, give promise of being fully realized. During the past few months the work of clearing away the debris and rubbish from the burnt district has been progressing rapidly, plans and specifications have been made of new buildings, contracts have been concluded for many handsome and costly structures, and as soon as the weather will permit building operations will be undertaken on an extensive scale. No lack of capital is complained of, and it is thought that abundant work and high wages will attract from other points all the skilled labor that may be needed. During the past few years the people of Boston have manifested a great deal of well directed commercial enterprise, and at no time in the history of that city were they so well able to compete for trade as just before the fire. A mar, ginal freight railroad, affording greatly improved facilities for the transfer of merchandise, without warehousing, between the termini of the railroad lines and all points along the water frunt, had just been completed, and the advantage thus secured was at tended with an important economy in cost of handling both imports and exports. With this, and the advantage of direct communication with the West through the Hoosac Tunnel, now rapidly approaching completion, the trade of Boston must continne in the future to improve, and even more rapidly than during the past year.

## THE DEBT STATEMENT FOR FEBRUARY, 1873.

The following is the official statement of the public deba as appears from the books and Treasurer's returns at the close of business on the last day of January, 1873:

[From our own correspondent.]

LONDON, Saturday, January 18, 1873.

The Board of Trade returns which have been recently published give somewhat extensive details of the trade of last year. From

those statements it appears that the total declared value of our principal exports amounted to £255,961,609, against £223,066,162 n 1871, and £199,586,822 in 1870. The total value of the manufactured cotton goods exported was £63,419,444, against £57,760, 207 and £56,745,210, of which the following are the details:

#### OTTON COODS.

The value of our importations in the year has been officially estimated at £353,375,740, against £330,754,359 in 1871, and £303,257,493 in 1870.

The Bank return which has been published this week is of a very favorable character, and clearly points to easier quotations for money. The demand for accommodation has been rather active, owing to the heavy imperial taxes now being paid; and in the open market, in consequence, the rate of discount is only about 1 per cent below the official minimum. There is, however, a good supply of money seeking employment, and it is believed that a reduction to four per cent must take place at an early date. The German demand for gold has not yet revived, but our im portations this week have been absorbed by purchases believed to be chiefly on Spanish account. The following are the present quotations for money:

| Per cent. 1                  | Per cent                          |
|------------------------------|-----------------------------------|
| Bank rate 4%                 | 4 months' bank bills 41/043       |
| Open-market rates:           | 6 months' bank bills 41/0/41/     |
| 30 and 60 days' bills41/4@4% | 4 and 6 months' trade bills. 4%@5 |
| 3 months' bills              |                                   |

The rates of interest allowed by the joint stock banks and discount houses for deposits are subjoined:

|                                      | er cent. |
|--------------------------------------|----------|
| Joint stock banks                    |          |
| Discount houses at call              | 31/2     |
| Discount houses with 7 days' notice  | 834      |
| Discount houses with 14 days' notice | 31/4     |

The arrivals of gold have been very small, but some large amounts are due from the United States and Australia next week, and it is believed that the whole of them will be purchased for export. Silver is in demand for export to the Continent, and is dearer. Mexican dollars, being very scarce, command extreme rates. The following prices of bullion are from the circular of Messrs, Pixley, Abell, Langley & Blake:

| GOLD.                                     | 8. | d.  |      | 8. d | ١. |

At the sale of Council Bills on India at the Bank of England, on Wednesday, £106,400 was allotted to Calcutta, £23,600 to Madras, and £220,000 to Bombay. Tenders on Calcutta and Madras at 1s. 10§d. received 41 per cent, and on Bombay at that price 70 per cent.

The steck markets have been rather dull this week. The strike in South Wales has had an nufavorable effect, in addition to which the half-yearly reports of the directors of the Manchester, Sheffield & Lincolnshire and London & Brighton Railway companies lay considerable stress upon the increased cost of working the lines. In the first named company's report an increase of fares is alluded to. The result has been that the selling orders of railway stocks have been rather numerous. A fewture in the Stock Exchange is the firmness of the market for United States Government securities, in the value of which a further rise has taken place. Erie shares have been rather dull, and have been as low as  $47\frac{1}{4}@47\frac{1}{2}$ . From that point, however. there has been a recevery. Illinois Central Railway shares are firmer, but other American securities show very little change. The following were the closing prices of consols and the principal American securities this afternoon:

| Consols                                                              | 35   | 21.00  | . 09  | 31 |

Messrs. Bischoffsheim & Goldschmidt have announced a further issue of £900,000 seven per cent Leased Lines Rental Trust bonds of the Atlantic & Great Western Railway Company, being part of the authorized issue of £1,272,000. The price of issue is 89 per cent. The bonds will be redeemed by annual drawings commencing with May 1, 1873.

mencing with May 1, 1873.

This issue of bonds is intended to provide means for sequiring control of and completing the following important properties. for which arrangements have already been made: 1. The Pennsylvania Petroleun Railroad, now under construction from Titusville, the centre of the petroleum region, to Cambridge on the Atlantic & Great Western, and proposed to be extended to the harbor of Eric, on Lake Eric, with the Colorado Branch (97 miles). 2. The Pithole Valley Railroad, which has been for several years in operation from Oleopolis to Oil creek, and will effect a junction with the Pennsylvania Petroleum Railway near Titusville (9 miles). 3. The Shenango & Allegheny Railroad, extonding from the Atlantic & Great Western, near Greenville, to the Allegheny River (52 miles). The shareholders in this railroad own the corporate rights of the Mercer Mining and Manufacturing Company, possessing, at nominal rates, perpetual mineral leases over 52,003 seres of land traversed by the railroad. The purchase of these railroads will complete the connections of the Atlantic & Great Western with the petroleum and mineral regions of Pennsylvania and Ohlo; and the whole, it is expected, will be in running order by July 1st. The proceeds of the present issue of 53,0,000 Rental Trust Bonds will be sufficient for the purchase of all interests in the Pennsylvania Petroleum Railroad and the Pithole Valley Railpoad, and a majority of the share capital of the Shenango & Allegheny Railroad Company, At the end of thirty years, when the principal of the bonds of this loan will have been redeemed by the operation of the suking fund, the shares and securities held by the trustees will become the absolute property of the Atlantic & Great Western Company, which will thus acquire a corresponding interest in about 158 miles of railroad in addition to its present system of 55 miles.

A procuectus has been issued of the Tecoma Silver Mining

A prospectus has been issued of the Tecoma Silver Mining Company, limited. The capital of the undertaking is £300,000 lenm have decli in £10 shares. The property is situated in Utah Territory, U. have advanced.

S. A., and the price to be paid for it is £280,000. The mines have been surveyed and favorably reported upon by Mr. Max. well, of the Flagstaff Mine.

It is stated that a loan for the City of Montreal will be introduced next week.

The Japanese loan which was advertised on Tuesday by the Oriental Bank Corporation has been well received. The bonds are to bear 7 per cent interest per annum, and the price of lasne is 923. The scrip is quoted at 21/m22 premium.

The corn trade has been wanting in animation this week, but good and fine qualities of produce are firm in value. The weather has been more favorable, much less rain having fallen. It is, however, too mild for the time of year, the early spring flowers being already in bloom. Late frosts are much to be feared. The following figures show the estimated value of our imports of grain last year and in the two preceding years:

|             | 1870.<br>£ | 1871.      | 1872.      |
|-------------|------------|------------|------------|
| Wheat 1     | 6,261,027  | 23,345,630 | 26,016,976 |
| Barley      | 2.531.544  | 3,407,425  | 6,194, 55  |
| Oals        | 4,381,607  | 1,141,687  | 4.212.066  |
| Peas        | 751,192    | 459.621    | 5/11.007   |
| Beans       | 648,755    | 1,269,121  | 1,186,066  |
| Indian Corn | 5,790,550  | 6.470.589  | 8,690,362  |
| Flour       | 8,383,751  | 3,502,784  | 4,092,169  |
| Total 3     | 4,051,726  | 12,597,363 | 50,988 741 |

The failure has been announced this week of Messrs. Heitz & Deveye, in the silk trade. The liabilities are estimated at £300,000 to £400,000, the whole of which is secured excepting a sum of between £20,000 and £30,000.

Messrs, Raphnel & Sons have issued the prospectus this afternoon of the new Hungarian loan for £5,400,000. The bonds will bear 5 per cent interest per annum, and the price of issue is \$0 per £100 bond.

The following statement shows the imports and exports of coreal produce into and from the United Kingdom since harvest, viz., from September 1 to the close of last week, compared with the corresponding periods in the previous year:

|             | 16 (2-13.  | 1871-72.   | 1870-71.     | 1500-70.    |

Northern Pacific Railroad.—Mr.C.W. Meade, general manager of the Northern Pacific Railroad, states that trains have run regularly on schedule time all winter from Duluth to Moorhead, on the Red River of the North, without delay or obstruction from the Red River of the North, without delay or obstruction from snow, except for two days of great storm, January 8 and 9, during which time all trains were auspended by orders from headquarters, waiting for the storm to close. On the following day the whole road was opened, and there has been no trouble since. Snow fences have proved a complete success, and protect the track perfectly. Mr. Meade will lay thirty miles of track remaining to reach Missouri River in twenty days, and will have a line of hoats running to Fort Benton, twelve hundred miles further up the Missouri River as soon as pariging opens. up the Missouri River, as soon as navigation opens.

Lehigh Valley Railroad.-The report of the Board of Managers shows a satisfactory increase in the business of the com-

pany

The anthracite coal tonnage for the year was 3,850,118 tons, an The enthracite coal tonnage for the year was 3,850,118 tons, an increase of 1,068,609 tons over the year 1871. Of bituminous coal carried there were 27,601 tons. The receipts from all sources, including interest on investments, income from coal lands, &c., amounted to \$6,434,915 29; operating expenses, \$3,869,868 98; net income, \$2,565,228 31. Of the old Lehigh Valley Railroad Company bonds, \$159,000 were paid during the year, and since then \$28,000 has been redeemed. All the Hazleton Coal Company's bonds, with the exception of \$3,000, have been paid.

The company are now prepared to exchang; for these outstanding at par its six per cent registered bonds (free from taxes) at 95 per cent, without interest in either case.

per cent, without interest in either case.

In order to protect the trade of the company the Board of Directors in March last authorized a distribution of new stock to the stockholders to the proportion of one share for every three shares held. The stock was all subscribed for, and 66,204 shares were paid in full up to the close of the year, and on the remainder the

paid in full up to the close of the year, and on the remainder the installments as they became due.

The usual quarterly dividends, amounting to ten per cent per annum, have been paid on the preferred and common stock.

The stock of the Eastern and Amboy Railroad Company has been taken by the Lehigh Vailey Railroad Company. A careful aurvey of the whole line from Phillipsburg, the present terminus of the Lehigh Valley Railroad Company, to Perth Amboy, has been made, and all the heavier parts of the work put under contract

The company's interests in coal lands have been increased during the year by the purchase of the tract known as the Delano lands, and comprising 5,800 acres, situated in Schuylkill county, near Mahanoy City. This tract has ten collieries; the consideration \$2,000,000.

St. Louis & Southeastern.—This company has its honds in the market to obtain money to make cestain improvements, additions to equipment and a short new line, which may reasonably be expected to very much increase the earning capacity and the traffic of a line now doing better than most new roads. The position of the line is somewhat peculiar, inasmuch as, being a through and very direct line (the shortest) between St. Louis and Nashville, that is a northwest and southeast line, nearly one half of the road that is a northwest and southeast line, nearly one half of the road forms a section of the shorteat line (almost an air line) between Chicago and Nashville, that is, due north and south; and, at the same time, a large part of the exiating line enat of St. Louis will make part of a straight enat and west line between Louisville and St. Louis. The improvements which the new loan will enable the company to make will put the road in condition to do this business with great convenience to shippers and economy to itself. The line has exceptionally good prospects, due largely to skill in designing and adapting it to serve so great a variety of interests, and all at least as well as any competitors can.

skill in designing and adapting it to serve so great a variety of interests, and all at least as well as any competitors can.

Messrs. Winslow & Wilson, in behalf of this company, have made the last payment due to Davidson County, Tenn., for its interest in the Edgefield & Kentucky Railroad. The payment was \$100,000 in Tennessee State bonds. The road is now owned by the St. Louis & Southeastern Company, and forms part of its line from St. Louis to Nashville.

from St. Louis to Nashviile.

Southside Railroad (L. I.)-The new managers of the Southside Railroad have determined to extend the double track Pearsalt's Corner to Babylon, and from Freal Pond to Bushwick, which will give a double track for the entire length of the road. They have already contracted for the iron for this purpose. They have also contracted for four new and powerful locomotives and a number of Wagner palace cars, and express the determination to make the road a first-class one in every particular.

Cavuga Lake Railroad .- This new enterprise forms the con necting link between the Ithaca & Athens and the Susquehanna branch of the Delaware & Lackawanna Railroad and the New York Central Railroad. Though not more than forty miles in length, the connection is one of importance for coal traffic. The Cayuga Lake road is in direct communication with Philadelphia, via the Lehigh Valley road.

Alabama & Chattanooga.—A report states that Governor Lewis, of Alabama, has sold the Chattanooga Railroad to a company of English capitalists.

Mutual Life Insurance Company of New York:—We would call the attention of our readers to the Annual Statement would call the attention of our readers to the Annual Statement of the Mutual Life Insurance Company, for the year ending December 31, 1872, which will be found on another page. The great fact which it shows is the continued and rapid progress of the company. During the year 1872 the managers have added \$6,809,000 to their already large assets; making the total net on the 31st of December, 1872, \$56,074,484.31, and showing in harda \$5,440,698 in excess of the value of all outstanding policies and all other liabilities. A remarkable feature of this record is the all other liabilities. A remarkable feature of this report is the very small ratio of expenses to receipts, being only 6.98 per cent for 1872 against 7.1 per cent in 1871, 9.2 per cent in 1870, and 10.6 per cent in 1869.

# BANKING AND FINANCIAL.

THE EIGHT PER CENT (quarterly interest) First Mortgage Gold Bonds of the Logansport, Crawfordsville & South. western Railway of Indiana, offered for sale by Messrs. JONES & SCHUYLER, No. 12 Pine street, yield the largest income of any first-class Railway Security on the market,

#### BANKING OFFICE OF FISK & HATCH, 5 NASSAU STREET.

NEW YORK, Feb. 7, 1873.

The CHESAPEAKE and OHIO, the CENTRAL PACIFIC and WESTERN PACIFIC BONDS, all of which have been negotiated by us, we believe to be among the best and most desirable Invest ment Securities In the market, which in time must become very scarce; especially as the Government will probably pay off, in gold, \$300,000,000 Five-Twenties, and a large amount of money thus released from investment must find its way into this class of securities.

The CHESAPEAKE AND OHIO SIX PER CENT. GOLD BONDS, the total amount of which is only \$15,000,000, are secured upon a property worth \$35,000,000 to \$10,000,000, and are fully equal in intrinsic value to the CENTRAL PACIFIC BONDS, They are issued in denominations of \$100, \$500 and \$1,000, coupon or registered, and at their present market price, 861 and accrued interest, are very desirable.

The CENTRAL PACIFIC SIX PER CENT, GOLD BONDS are too well known to require description or commendation. Their total amount is \$25,885,000; they have for a long time ranged in market price near or above par. Their market price to-day is 1038@1038.

The WESTERN PACIFIC SIX PER CENT, GOLD BONDS amount to \$2,735,000. This road is now consolidated with the CENTRAL PACIFIC, and the payment of its bonds, principal and interest, is assumed by the latter. As they have recently been introduced on the Steck Exchange, we expect to see them rapidly rise to the price of CENTRAL PACIFICS, being substantially the same in character and value. Coupon Bonds, \$1,000 each. Their market price to-day is 92½ to 92%.

We buy and sell, as usual, Government Bonds, receive deposits. on which we allow interest, make collections, and conduct a general banking business in all its branches.

FRIDAY EVENING, Feb. 7, 1873

The Money Market .- Money has worked pretty closely all the week, and rates on call to stock brokers have generally included a commission in addition to 7 per cent, or 7 per cent gold interest. The course of monetary affairs is evidently disappointing to many who are interested in speculation or investments, as it had been supposed that the beginning of February, at farthest, would find the market in a permanently settled condition at reasonably easy rates. The effect of January coupen and dividend disbursements has not been so great as was anticipated, and the return of currency from the Interior to this point has not been sufficient to improve materially the condition of our bank reserves, which have been reduced to some extent by the export of gold coin.

The Treasury programme for February embraces the sale of \$1,500,000 gold each Thursday, making \$6,000,000 in all, and the purchase of \$1,000,000 bonds each Wednesday, or \$4,000,000 in the month.

The rate for money during the week has ranged from 7 per cent gold, with the addition of 1-16 per day commission, down to 4 per cent currency, as the extremes—a fair quotation being about 7 per cent currency to 7 and 1-32 per day. To-day the rate was 7 to 7 gold in the morning, and 7 gold to 1-32 and interest at the close. For commercial paper the rates are a shade better for

buyers, and the lowest rate now quoted is 74 per cent, the range for prime paper being 74 to 84

Advices from London continue to be favorable. The Bank rate remains unchanged at 3) per cent, although money is lower in the open market. The Bank gains this week £379,000 in bullion.

The Bank of France reports a decrease in specie of 250,000 francs.

tranes.

The last statement of our New York city banks (Feb. 1), showed a decrease of \$2.048,775 in the excess of reserven. The total liabilities atood at \$244,669.500, the total reserve at \$94,414,300, being \$3,246,925 more than 25 per cent of the liabilities.

The following statement shows the changes from previous week

and a comparison with 1872 and 1871:

| _                             |                              | Feb. 1.     |              | erences.                      |                                        | 1971.<br>Peb 4                          |

United States Honds. The grent event of the week in regard to government bonds has been the opening on Tuesday of the books for subscription to the \$300,000,000 new funded live per cents both here and in London; the books closed to-day, but Syndicate would furnish no information whatever as to the

result, up to a late hour this evening.

From the N. Y. Times we learn that the precise terms of the arrangement with the present Syndicate—

"allow the banking firms engaged in the negotiation a profit of \$6,000,000. They receive one and a half per cent on the interest for three months, in gold, and the alditional half of one per cent provided by Congress, making two per cent in all. Under these figures the syndicate take the bonds at 98 and sell them at par. Their obligation to the Government is to buy \$10,000,000 right out, with the option of taking the entire balance, whether sold or not up to December 1, 1873."

This morning it was announced that the Government bas called in \$100,000,000 of five-twenties from which it would appear that they have entire confidence that at least that amount of new bonds will be sold under the present negotiation. The following is the official list of the numbers of the \$100,000,000 of 520 bonds called in, on which interest will cease May 7th next. All there bonds were issued under the act of February 25, 1862. This call includes all the remaining bonds of the many 25, 1862. includes all the remaining bonds of the second series and \$50,397, The details are: 500 of the third series of coupon issues. SECOND SERIES.

State and Rattroad Bonds -There has been only a limited brate and graute and Bough —There has been only a limited business in State bonds as the present period is not favorable for dealings in the Southern State securities. Tennessees have been lower in consequence of the decision that the Bank of Tennessee "new issues" must be received for taxes; these are said to amount to about \$1,500,000, and the receipts from taxes would therefore be reduced to that amount if this is carried into effect.

Railrand honds have been netice, and the agents for new loans.

ne reduced to that amount it this is carried into effect.

Railroad bonds have been netive, and the agents for new loans report larger sales than for some time previously. The business in railroad bonds is again stimulated by the calling in of governments, and as there are many excellent securities selling here at moderate prices, there is every reason why investments in this direction should be favored as they are. The advice of reliable brokers should always be sought however in purchasing railroad. brokers should always be sought, however, in purchasing railroad bonds.

The Union Pacific first mortgage & per cent gold tonds are sell-

ing to-day at 88\$, and the land grant 7 per cents at 77½; at these prices the bonds ought to be cheap if the road (1,038 miles) is believed to be worth \$27,000,000, or the lands (11,430,948 acres) to be worth \$8,948,000.

Closing prices daily, and the range since Jan. 1, have been:

^{*} Tais is the price bid. no sale was made at the Board.

Ratir ad and Miscellaneous Stocks .- The principal activity in stocks has been in a few speculative favorites, with Western Union Telegraph as the principal feature. The dealings in this Chion telegraph as the principal leature. The dealings in this latter stock have been of enormous extent, and it is reported that the sharp rise is in consequence of a "corner" in which some prominent operators are interested on either side. There has also been some activity in Erie, Pacific Mail, Lake Shore, New York Central, and Ohio & Mississippi. Prices are well sustained and the irregularities in money seem to have but little influence. Earnings are reported as follows:

|                                | 1872 -3.    | 1871-2.     | Increase. |
|--------------------------------|-------------|-------------|-----------|

The Gold Market.-Gold has been somewhat variable, hav-The Gold Market.—Gold has been somewhat variable, having taken a lower range early in the week on the prospect of the Syndicate transactions, and being firm subsequently on the efforts of those who are unfavorable to the success of the Syndicate. To-day the price was 113\subseteq at the opening, and advanced to 113\underseteq 614, as there was no announcement concerning the result of the offerings to the Syndicate, whose books closed to day. On gold loans the rates for carrying to-day were 3, 2, 2\underseteq 4, 5, 6, and 7 per cent. At the Treasury sale of \underseteq 1,500,000 on Thursday the bids amounted to \underseteq 4,350,000. Customs receipts this week have been \underseteq 2,732,000.

The following table will show the course of the gold premium.

The following table will show the course of the gold premium

Foreign Exchange.—The exchange market has been with. Foreign Exchange.—The exchange market has been without any feature of special importance, and a fair amount of business has been transacted. The supply of cotton bills has at times been quite abundant, with some effect in shading in prices. Business has been checked to a considerable extent by the fact that all parties have been waiting to see the result of the Syndicate business.
